## What Our Patients Say

SeniorConnect empowered me to care for my husband post-bypass surgery. Their immediate support and guidance eased my worries about managing unexpected challenges at home. I feel that the doctors and nurses of SeniorConnect not only care about the patient but are also there to lend their ears to the caregiver.

The nurses at SeniorConnect observed an elevated Blood Pressure of my grandmother. They advised me to bring her to see her regular cardiologist at SJMC and helped to make an appointment for us. I am glad the SeniorConnect nurses alerted me before her condition worsened.
