# SeniorConnect

Connected Care by SJMC

In Subang Jaya Medical Centre (SJMC), we believe in facilitating an integrated and accessible healthcare experience to meet the needs of our patients.

**SeniorConnect is a remote patient monitoring service for elderly patients aged 65 years old and above, who are living independently with a caregiver.**

Our remote monitoring kit enables the individual's vital signs to be taken by a caregiver, which is then recorded automatically and monitored in real-time by our team of healthcare professionals in SJMC.
