---

★★★★★  
" My frequent Health Screening Centre for the longest time. Has always been my preferred place for its systematic approach, friendly staff and competitive pricing. "  
**Jasmine Teo**

★★★★★  
" Health Screening Centre services are good environment also very friendly. Doctors are kind and helpful as well. When I got back my reports the doctor also very kind to explain to me. Highly recommended to others. "  
**Nicole Vlog**

## Health Screening Tips

DOs	DON'Ts
 Allocate 1 full day to complete your health screening.	 Delay your health screening as wait times will be longer during peak periods (October to December)
 Fast at least 10 hours prior to your health screening.	 Wear jewellery during your health screening as you will be required to remove them for X-ray procedures.
 Stay hydrated with plain water before your screening.	 Schedule your health screening during your menstruation. It should be done at least 14 days after the first day of your period.
 Wear comfortable shoes and clothing.	 Don't do any X-rays if you are pregnant as it may harm the foetus.
 Expect to get your health report on the same day (for appointments before 10am) or the following day (for appointments after 10am or during peak periods).  <i>For ladies who have done a Pap smear test, test results are only available 4 working days post-screening. We advise you to collect your report then.</i>
